

Aurelian Industrial Group

Engineering the Infrastructure of Tomorrow

Company Overview

1984

Founded,
headquartered in
Zurich, Switzerland

11,400

Employees across
22 countries

\$4.8B

Annual revenue
(FY2025)

4

Integrated divisions
serving aerospace,
energy, and
infrastructure

Our Guiding Principles

Build the systems that power industry, safely and for generations.

MISSION

I Precision in every component

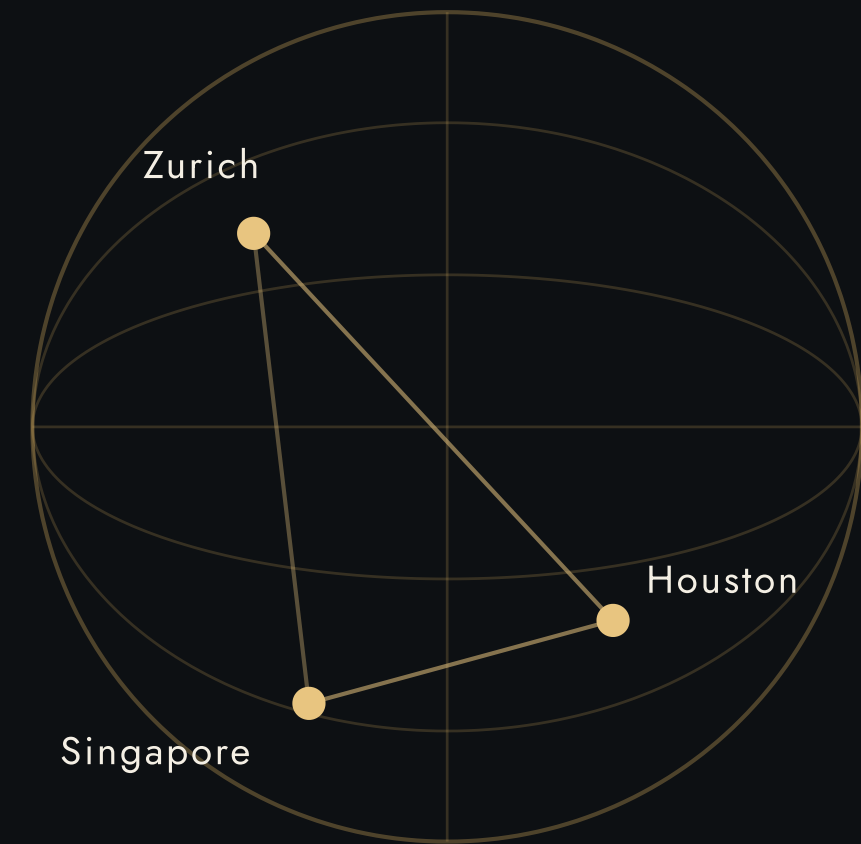

II Integrity in every partnership

III Safety without compromise

IV Innovation with purpose

A Global Manufacturing Network

- 18 manufacturing facilities across Europe, North America, and Asia-Pacific
- Regional hubs in Zurich, Houston, and Singapore
- Distribution reach into 60+ countries

Four Pillars of Industrial Strength

I

Aerospace Systems

Precision components for flight

II

Energy Infrastructure

Power generation and grid systems

III

Precision Manufacturing

Tooling and machined components

IV

Industrial Automation

Robotics and control systems

06

Aerospace Systems

- Turbine blades, structural components, and avionics housings
- AS9100D certified across all production lines
- Supplies to 14 commercial and defense aircraft programs

07

Energy Infrastructure

- Turbine generators, substation equipment, and grid control systems
- Deployed across 30 national power grids
- 6.2 GW of installed generation capacity supported

08

Precision Manufacturing & Automation

- CNC machining tolerances to 0.001mm
- Robotic assembly lines with integrated quality control
- Serving automotive, medical, and heavy-equipment clients

Manufacturing Excellence

4.2M

Square feet of production floor

Lean

Manufacturing across every facility

99.6%

On-time delivery rate

Innovation & Research

\$210M

Invested in R&D in FY2025

340

Active patents

5

Dedicated innovation centers
worldwide

Quality & Certifications

—
ISO 9001:2015 across all divisions

—
AS9100D for aerospace manufacturing

—
ISO 14001 environmental management

—
Zero major safety incidents in the last three years

12

Sustainability Commitments

2035 Carbon-neutral operations targeted

38% Reduction in facility emissions since 2020

100% Renewable energy at four flagship plants

Financial Highlights

\$4.8B

+12% YOY

Revenue in FY2025

21%

EBITDA margin

\$6.3B

Order backlog entering FY2026

Leadership Team

Helena Voss

CHIEF EXECUTIVE OFFICER

Marcus Adebayo

CHIEF OPERATING OFFICER

Ingrid Lindqvist

CHIEF FINANCIAL OFFICER

Daniel Cho

CHIEF TECHNOLOGY OFFICER
